

The four registrations card

Four different things get called “registering in a state”.
They are not the same.

WHAT IT IS	WHAT IT ACTUALLY REGISTERS	WHAT IT DOES NOT DO	YOURS — NUMBER + DATE
Professional licence			
Business registration			
DEA registration			
State controlled-substance registration			

PER STATE — FILL ONE ROW FOR EACH STATE YOU HOLD OR WANT

STATE	LICENCE	BUSINESS REG.	DEA	STATE CSR

The two people conflate are the second and the third. The one people skip is the fourth, and it is the one that stops a prescription on a Friday afternoon.

Every cell on this card is a **receipt**: a number and the date you confirmed it. What a state requires is not written here and should never be written here — it changes, and a card that states it will be wrong before you need it.
